

Big Hawk® Pilot Bit

48-27-1401

What's Included

(1) Big Hawk® Pilot Bit (48-27-1401)

Features

- Machined cutting edge: Helps maintain speeds up to 10X faster than hole saws
- Exclusive bit geometry: Enables easier plug removal

Specifications

| | |
|------------------|---------------------|
| Shank | 1/4" |
| Style | Big Hawk® Pilot Bit |
| Compatible Sizes | All |

Overview

The Milwaukee® Big Hawk® Pilot Bit works with Big Hawk Hole Cutters to cut up to 10X faster than hole saws and 37% faster than the competition. The machined cutting edge aids in increasing the cutting speed. An exclusive recessed flat boring design minimizes contact with the plug, creating less friction and easing plug removal for cleaner and more efficient cutting. The shank size is 1/4".
