

WIRE WHEEL BRUSHES FOR ANGLE GRINDERS

These wire wheel brushes are used for working in grooves and for heavy duty wire brushing. They are made from top quality wire that is tightly knotted and each tuft is precisely positioned and set for perfect balance and vibration free operation. The narrow face contact gives the highest impact and fast material removal.

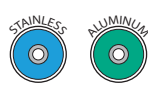

- ✓ STEEL brushes feature a special high tensile wire for longest brush life
- ✓ Stringer bead brushes are extra narrow to clean pipe welds between passes, to brush in narrow grooves, etc.

- ✓ Knot-twisted and double-row brushes are for surface cleaning after welding, to remove scale, spatter, rust and corrosion
