Product Certification

Product Features

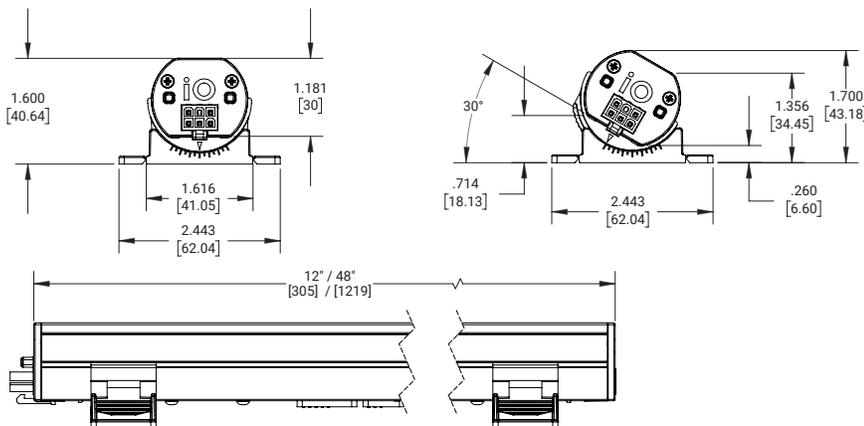

Top Product Features

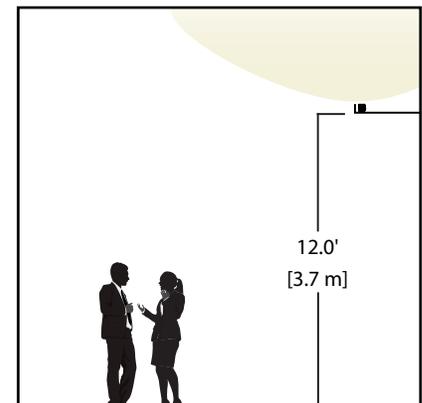

- Cove lighting fixture with integral dimming driver
- Rated for interior / damp installations
- 5 Field Selectable CCTs (2400K, 2700K, 3000K, 3500K, 4000K)
- 90 CRI Standard with 3 SDCM binning
- Field Selectable output nominal (350 lm/ft and 700 lm/ft) with lockout plate
- Up to 200ft run from a single power drop
- 1 ft and 4 ft length options
- Corner (COR) fixture available for continuous illumination of corners and curves
- Adjustable mount (+/- 30 deg)
- Integral 0-10V dimming (100%-10%)
- DALI and WaveLinx control options available

Dimensions

Composing an Order

Orders must include:

1 Fixture(s) + 2 Power Harness / Control Module + 3 Optional Accessories as needed

1 Fixtures (REQUIRED)

| Catalog Number | Length | CCT Setting | Low Output Setting (3.5W) | | High Output Setting (7W) | |
|---|-------------------------|-------------|---------------------------|----------------|--------------------------|----------------|
| | | | Lumens (lm) | Efficacy (LPW) | Lumens (lm) | Efficacy (LPW) |
| CS-SL-9SCT-120-ID-UNV-W-SA-STD-1F CS-SL-9SCT-120-ID-UNV-W-SA-STD-COR | 1 ft (12" / 305 mm) | 2400K | 339 | 97 | 731 | 104 |
| | | 2700K | 351 | 100 | 759 | 108 |
| | | 3000K | 359 | 103 | 778 | 111 |
| | | 3500K | 369 | 105 | 801 | 114 |
| | | 4000K | 379 | 108 | 827 | 118 |
| CS-SL-9SCT-120-ID-UNV-W-SA-STD-4F | 4 ft (48" / 1220 mm) | 2400K | 1661 | 119 | 3336 | 119 |
| | | 2700K | 1719 | 123 | 3454 | 123 |
| | | 3000K | 1758 | 126 | 3532 | 126 |
| | | 3500K | 1805 | 129 | 3626 | 129 |
| | | 4000K | 1854 | 132 | 3725 | 133 |

2 Power Harness/Control Modules (REQUIRED)

Note: Please utilize adjacent iO CovSelect Run Length Limits¹ chart to determine the number of power harnesses / control modules required to support planned runs.

| Catalog Number | Details |
|--|--|
| CS-10V-STD | Standard power harness (for beginning of run power connection) |
| CS-10V-BOX | Power connection box without harness for small spaces. |
| Notes | |
| 1. A power harness, power connection box or control module is required for line voltage connection of each run. | |
| 2. DALI and WaveLinx control modules can be added to CS-10V-BOX only. DALI and WaveLinx control modules must be ordered separately as accessories (see section 3 below). | |

3 Accessories (OPTIONAL)

| Catalog Number | Details |
|--|--|
| CS-10V-STD-72CORD | 72" Cord and plug accessory |
| CS-JHARN02-006 | 6" Jumper accessory |
| CS-JHARN02-012 | 12" Jumper accessory |
| CS-HARN02-060 | 60" Jumper accessory |
| CS-JHARN02-144 | 144" Jumper accessory |
| CS-DLENS-1F | Diffuse lens accessory, 1 ft |
| CS-DLENS-4F | Diffuse lens accessory, 4 ft |
| DAC-DC1 | DALI control module (can be added to CS-10V-BOX for DALI control) |
| RSP-P-010-347 | WaveLinx control module (can be added to CS-10V-BOX for WaveLinx wireless control) |
| CS-10V-STD | Standard Power Harness (for beginning of run power connection) |
| CS-10V-BOX | Power connection box without harness for small spaces |
| Notes | |
| 1. A power harness, power connection box or control module is required for line voltage connection of each run. | |
| 2. DALI and WaveLinx control modules can be added to CS-10V-BOX only. DALI and WaveLinx control modules must be ordered separately as accessories (see section 3 below). | |

iO CovSelect Run Length Limits¹

| Run Length Limits (ft) | | | |
|---|-------------|---------------------------------------|-------------------|
| | | 1F = 12" | 4F = 48" |
| Fixture Length | | 1F = 12" | 4F = 48" |
| Fixture Input Wattage | | 6.2 W | 20.6 W |
| Source Current | | 0.2mA | 0.2mA |
| Input Current (120-277V) | | 64.8mA | 222mA |
| Dimming Protocol | 0-10V (STD) | Maximum Run Length (ft) @ 120V | 100 116* |
| | | Maximum Run Length (ft) @ 277V | 150*** 288** |
| Notes | | | |
| *Run must be limited to 100 ft when using both 1F and 4F fixtures in a single run at 120V. | | | |
| **Run must be limited to 200 ft when using both 1F and 4F fixtures in a single run at 277V. | | | |
| *** Run length is limited based on common 30 mA dimmer limit. Run length could be extended to 200 ft for dimmers with 50 mA current rating. | | | |

Catalog Number Details

No QS prefix needed for Stock or Quick Ship orders.

SAMPLE CATALOG NUMBER: **CS-SL-9SCT-120-ID-UNV-W-SA-STD-4F**

| Series | Lumen Package (Power) | LED CRI & CCT | Optical Distribution | Environment | Voltage |
|--|--|---|--|--|---|
| CS =CovSelect Linear LED | SL =Selectable Output (350lm/ft or 700lm/ft) | 9SCT = 90+ CRI, Selectable CCT | 120 =Standard lambertian | ID =Indoor | UNV =120-277V |
| Notes Architectural LED cove luminaire with integral driver from iO LED. | Notes Nominal for 12" section. See Lumen Multiplier Chart below for absolute lumen output per wattage and CCT setting. | Notes 5 selectable CCT settings: 2400K 2700K 3000K 3500K 4000K. | Notes CovSelect is indoor rated for damp locations only. | Notes CovSelect is indoor rated for damp locations only. | Notes See iO CovSelect Run Length Limits for limitations. |

| Housing Color | Mounting | Control | Length |
|--------------------------|--|---|---|
| W =Standard White | SA =Surface Mount - Adjustable | STD =0-10V dimming (100%-10%) | 1F =1 ft (12") Individual fixture 4F =4 ft (48") Individual fixture COR = Corner and curved installations (for use without jumper cable) |
| Notes | Notes Mounting bracket has built in +/- 30 deg adjustability and can be mounted in any orientation including direct, indirect, or wall mounted. Mounting brackets are shipped integral to fixture for easy installation. | Notes Integral 0-10V dimming driver standard. | Notes |

Accessories

(OPTIONAL)

Note: Jumpers are required for all curves and corners in planned runs if not using the corner fixture (COR).

| Catalog Number | Details |
|--|--|
| CS-10V-STD-72CORD | 72" Cord and plug accessory |
| CS-JHARN02-006 | 6" Jumper accessory |
| CS-JHARN02-012 | 12" Jumper accessory |
| CS-HARN02-060 | 60" Jumper accessory |
| CS-JHARN02-144 | 144" Jumper accessory |
| CS-DLENS-1F | Diffuse lens accessory, 1 ft |
| CS-DLENS-4F | Diffuse lens accessory, 4 ft |
| DAC-DC1 | DALI control module (can be added to CS-10V-BOX for DALI control) |
| RSP-P-010-347 | WaveLinx control module (can be added to CS-10V-BOX for WaveLinx wireless control) |
| CS-10V-STD | Standard Power Harness (for beginning of run power connection) |
| CS-10V-BOX | Power connection box without harness for small spaces |
| Notes | |
| 1. A power harness, power connection box or or control module is required for line voltage connection of each run. | |
| 2. DALI and WaveLinx control modules can be added to CS-10V-BOX only. DALI and WaveLinx control modules must be ordered separately as accessories (see section 3 below). | |

Product Specifications

Construction

- Extruded aluminum, powder coated housing.
- Diffuse polycarbonate extruded lens.
- Proprietary quick connect plugs for fast installation.
- Available in 1 ft (12") or 4 ft (48") lengths.
- COR option available with extended connection cable for maximum fixture placement flexibility in installing corners or curves with continuous light distribution.

Electrical

- Integral high performance constant current driver.
- Field Selectable output with nominal 350 lm/ft and 700 lm/ft setting options.
- Lockout plate included to assure desired power ratings during and after inspections.
- Flicker free performance with PST < 1.0 and SVM < 1.0.
- Standard 0-10V dimming (10% - 100%).
- Each cove module is configured for a line voltage feed while providing through wiring and quick connects for continuous mounting applications.
- Universal driver accepts 120V to 277V supply voltage. 277V supply voltage increases run lengths possible from a power drop.
- Utilize jumpers and separate power feed(s) to create emergency circuits. Consult customer service for additional assistance.
- See page 2 for iO CovSelect Run Length Limits for limitations.
- See pg 7 for Dimmer Compatibility chart.

LED Optics

- 90+ CRI standard with 3 SDCM binning.
- Field Selectable CCT with 2400K, 2700K, 3000K, 3500K or 4000K setting options maintain 3-step MacAdam Ellipse across selectable CCT range.
- Discrete mid-powered LED array with diffuse, extruded lens delivers a cove light distribution free from striations.
- Field-installable diffuse lens accessory is optional for added diffusion.
- Fixtures designed to connect directly via plug-and-play connectors to deliver the most consistent cove illumination possible.
- Luminaires tested per IESNA LM-79.
- TM-21 lifetime extrapolation based on LM-80 data:
L70 at 25°C > 60,000 hours
L90 at 25°C = 52,000 hours

Mounting

- Each individual fixture comes standard with molded polycarbonate mounting bracket(s) with integrated +/- 30 deg adjustability.
- Can be mounted in any orientation including direct, indirect, or wall mounted. Mounting brackets are shipped integral to fixture for easy installation.
- Mounting has scoring line on one side for tightly spaced installations. Note 2 mounts per fixture and at least 1 screw per mount is required for secure installation.
- Power harness is required for connection to line voltage at the beginning of each run and must be ordered separately as an accessory.
- STD power harness includes beginning of run power harness and junction box for line voltage connection.
- Power connection box (CS-10V-BOX) is available without power harness for when minimal installation space is desired.
- Fixture end caps include quick connects for easy and secure end-to-end installation in straight runs. Release tab must be pressed to disconnect fixtures.
- Corner (COR) option available with extended connection cable for fixture placement flexibility in installing corners or curves with Corner (COR) continuous light distribution.
- Jumper cables are available in a variety of lengths (6", 12", and 144") to enable a wide variety of curved installations and avoid interference with other building and architectural systems. Jumpers must be ordered separately as accessories.

Finish

- Powder-coated aluminum housing.
- Standard color is white with white end caps and white power harness and white jumpers.

Compliance

- Luminaires are ULus listed for 50° C ambient environments.
- Title 24 / JA8 certified.
- Damp Location Listed.
- RoHS compliant.
- Tested according to IESNA LM-79 (See pg 5). Full set of IES files are available at CooperLighting.com.

Environment

- Suited for indoor / damp installations.

Control

- Integral 0-10V driver standard with minimum dim level of 10%.
- DALI and WaveLinx control is possible for run by adding appropriate control module accessory to CS-10V-BOX.

Weight

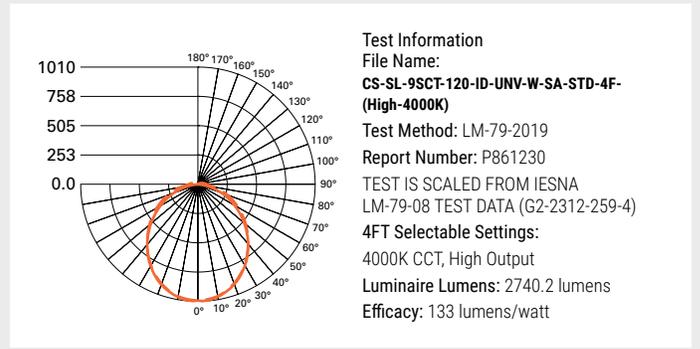

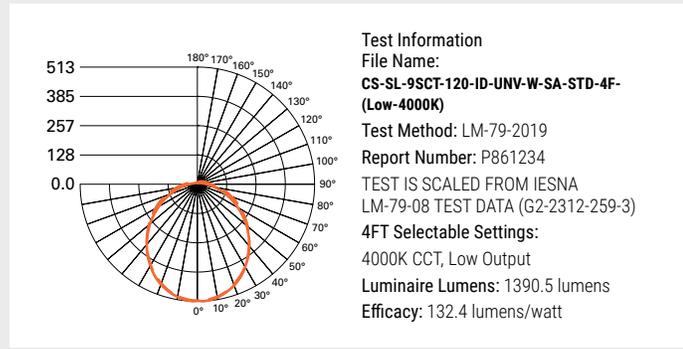

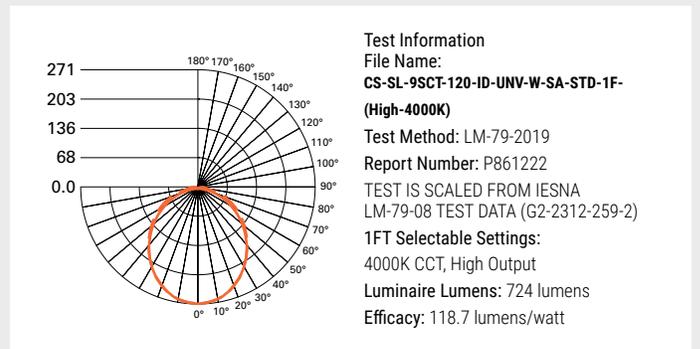

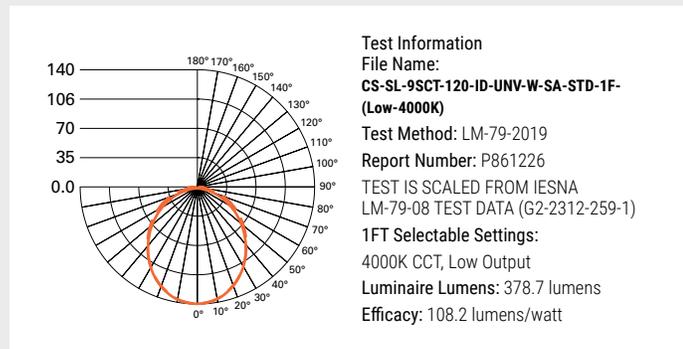

- 1F = 0.46 lbs
- 4F = 1.33 lbs

Warranty

- 5-year standard limited warranty.

Photometric Data

 View IES files

Note: Refer to IES files for complete product data for all CCT and output settings. Full set of IES files are available at CooperLighting.com.

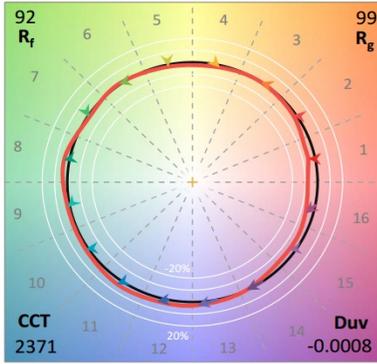

Light Output Conversion Table

| CRI | CCT | Low | High |
|-----|-------|------|------|
| 90 | 2400K | 0.45 | 0.90 |
| | 2700K | 0.46 | 0.93 |
| | 3000K | 0.47 | 0.95 |
| | 3500K | 0.48 | 0.97 |
| | 4000K | 0.50 | 1.00 |

| Specifications |
|-----------------------------------|
| >0.9 Power Factor |
| <20% Total Harmonic Distortion |
| Average Efficacy > 116 lm/W |
| -30°C Minimum Ambient Temperature |
| 50°C Maximum Ambient Temperature |

Dimmer Compatability

| List of Tested Dimmers | | |
|------------------------|------------|--------------|
| Manufacturer | Technology | Part Number |
| EWD (Eaton) | 0-10V DC | SF10P-W |
| EWD (Eaton) | 0-10V DC | SF10P-W |
| Lutron | 0-10V DC | DVSTV-WH |
| Lutron | 0-10V DC | IP710-LFZ |
| EWD (Eaton) | 0-10V DC | WBSD-010M-C1 |

Mounting and Installation

CovSelect fixtures are designed to connect end-to-end to deliver optimized cove illumination and performance. The dimensions below show adjoining fixtures with the simplistic plug-and-play mechanical and electrical design. The connector includes a snap feature to ensure a secure connection is maintained over time. The release button on the bottom of the connector must be pressed to disconnect the fixtures.

Other mounting and design considerations:

- Mounting location must have solid base / blocking material for secure mount.
- The adjustable mount is designed to secure fixtures in any orientation: direct, indirect, or wall mounted.
- The adjustable mount can be aimed +/- 30 deg in either direction to optimize light distribution for each installation.
- Matte surface finishes in, above and adjacent to cove will deliver optimal volumetric cove light distribution.
- Fixtures should be mounted at least 2" from wall for optimal cove light distribution. See cove design guidelines at right.
- Cove height should be optimized to allow for effective direct light distribution from the cove. See design guidelines at right.
- Jumper cable accessory or corner fixture is required for curves and corners.
- CovSelect is approved for dry or damp installations only.
- The height of the cove face should be designed to hide the fixture from direct view but not interfere with the optical distribution of the light.

Linear Run Layout / Design

CovSelect fixtures and accessories must be ordered separately. (see details on pg.3).

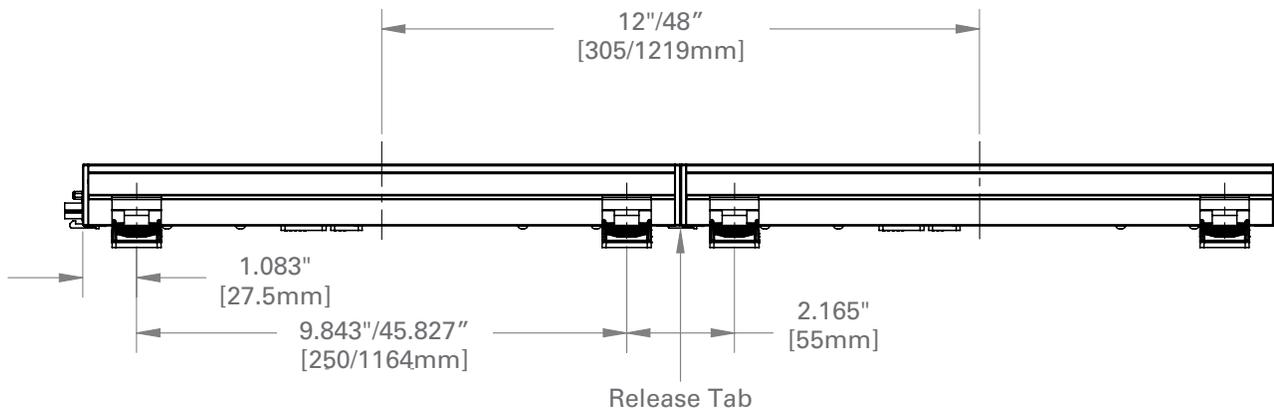

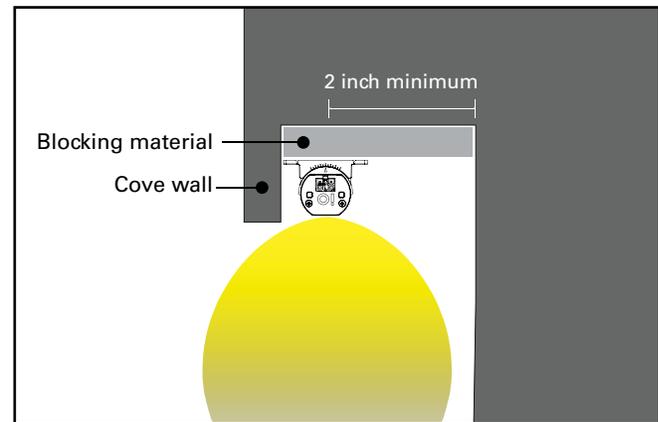

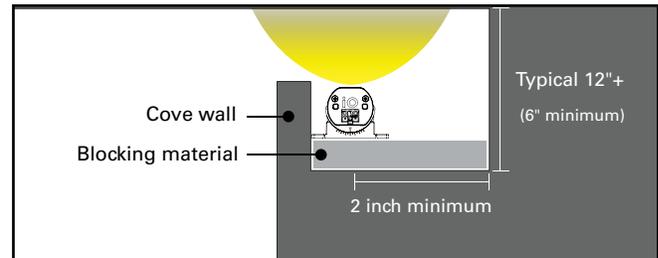

Orders must include:

1. 1F and 4F fixtures (mounts are included) to cover desired run length.
2. Power harness or control module for line voltage connection (see page 2 for run length limits).
3. Jumper accessories or COR (corner) fixtures are required for any curves or corners.

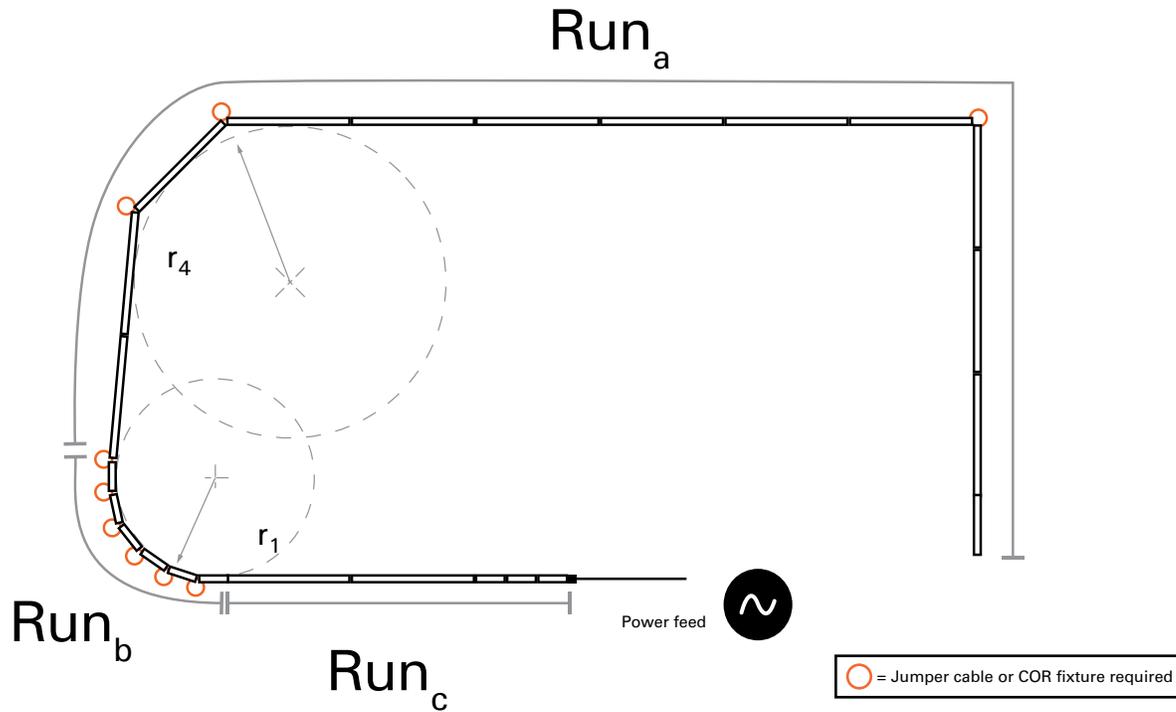

Cove Design Guidelines

Optimize cove design details utilizing the considerations at left and the diagram below.

Note: Design the cove big enough so the light will wash the intended surface effectively. More space typically results in a more pleasing cove effect. A smaller cove does not produce better illumination and may limit light output distribution. The cove face height should be optimized to hide visibility of the cove fixture while not interfering with the light distribution. See diagram below for reference.

Run Layout Guidelines

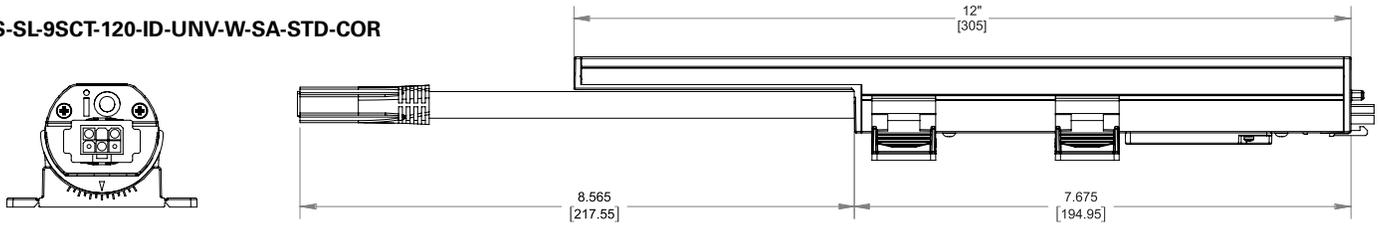

- Run_a is a 49 ft run and would be ordered as (12) x 4F fixtures + (1) x 1F fixture + (3) x jumpers or corner (COR) fixtures (required for curves and corners)
- Run_b is a 6 ft curved run and would be ordered as (6) x 1F fixtures + (6) x jumpers or COR (corner fixtures) (for curve) NOTE: If COR fixtures are used (3) x additional 1 ft fixtures would be needed in addition to the COR fixture to replace the 4F fixtures shown
- Run_c is an 11 ft run with power feed and would be ordered as (2) x 4F fixtures + (3) x 1F fixtures + (1) x power cord
- **Summary:** The entire run shown in the diagram above would be ordered as (14) x 4F fixtures + (10) x 1F fixtures + (9) x jumpers or corner (COR) fixtures + (1) x power cord
The total run of Run_a, Run_b, and Run_c is 66' in length, hence only (1) x power cord is required (see pg 2 for run length limits)

Dimensions

Corner fixture

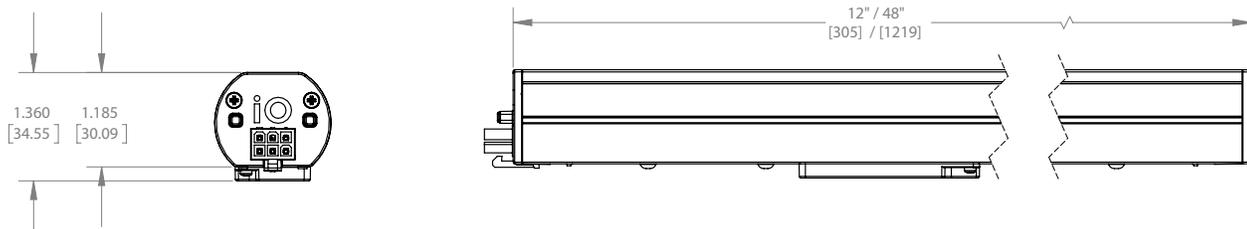

CS-SL-9SCT-120-ID-UNV-W-SA-STD-COR

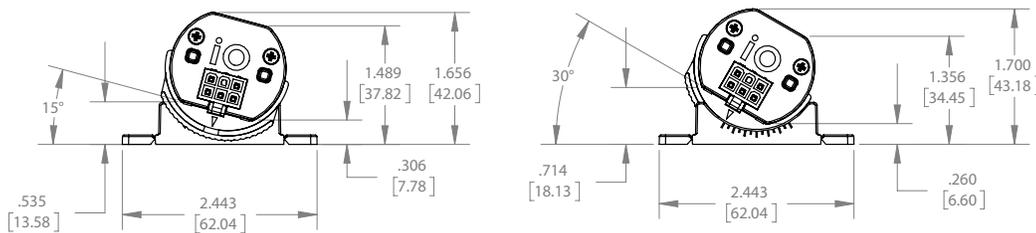

Note: The COR fixture includes an extended 8" power cable with quick connect in place of having the quick connect built into the fixture end cap. This allows for added flexibility of connections between fixtures for corners and curves without the need for jumpers.

The COR fixture enables seamless connections between fixtures with consistent, continuous light distribution for 90 deg corners or curves up to 180 deg.

Without Bracket

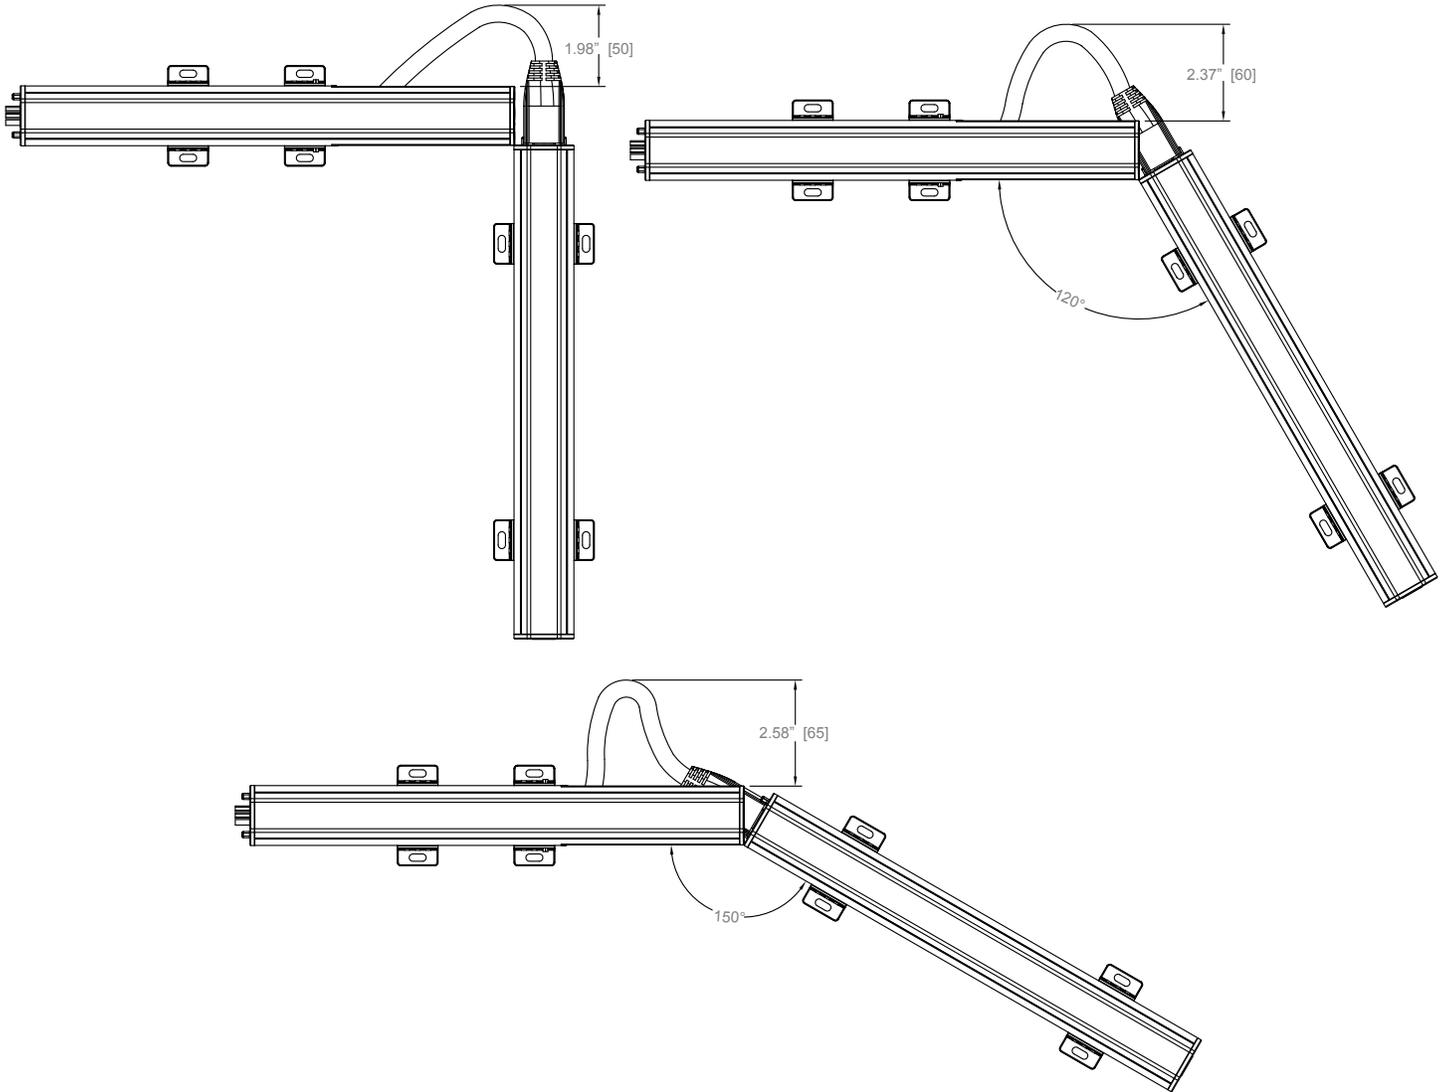

With Bracket

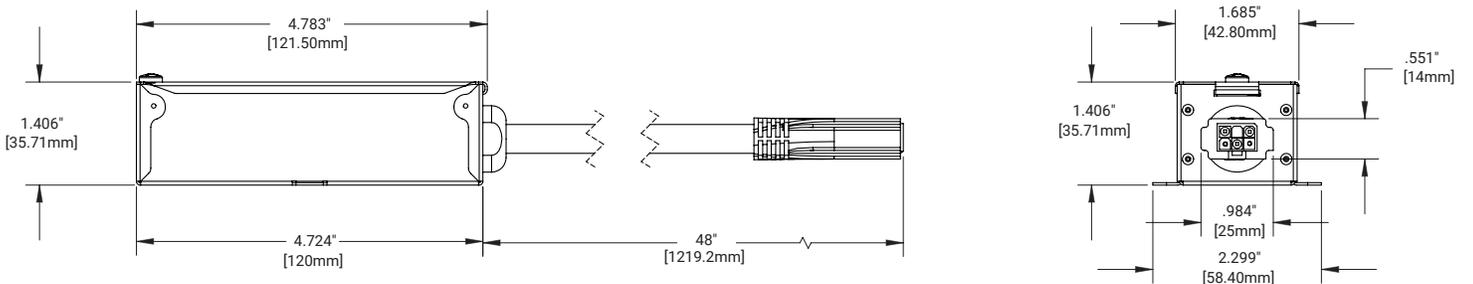

Dimensions

Corner (COR) fixture installation for corners and curves

Note: For any fixtures where fixtures overlap wire harnesses, fixtures will not tilt.
