## Outdoor Soffits & Accessories

Reinvent your exterior areas with STANDARD's line of outdoor soffit recessed fixtures. Our product offering comes in a selection of colours to match your home exterior.

These fixtures can transform any outdoor setting into a well lit and safe environment. Their durable construction will provide years of long lasting illumination. These fixtures can also be used in indoor applications.

Black baffles reduce the most amount of glare from the lamp, while white baffles help to reduce or eliminate the appearance of dark holes in the ceiling.

The fixture can be adjusted to adapt to the height of the different lamps.
