BLUEVIEW™ FISH TAPE

DIGITAL LENGTH INDICATOR

BlueView™ technology brings modern convenience to the IDEAL® Fish Tape line that has been trusted for decades. With on-board electronics, the BlueView™ Fish Tape provides a real-time digital length display to track the amount of tape being fed from and retracting into the case.

Features:

- Tested in real environments:
 - Exposure to lubricants, dirt/debris, metal shavings and temperature extremes
 - Drop and durability performance
 - Proven accuracy through continued use
- Accurate to 1-foot over the length of the fish tape and is programmed to round up eliminating wires cut short
- Great for measuring wire needed for new runs, determining locations of hangups and troubleshooting
- Simple calibration procedure to ensure accuracy
- Live reading of tape length out of the case while feeding and retracting
- Runs on AAA batteries with up to 40 hours of continuous use, with on-board storage for replacement batteries
- Auto sleep and shut down modes help conserve battery life

BlueView™ Display

High visibility on-board digital length indicator

Materials

Blued-Steel™ and S-Class® fibreglass options available

Field Calibration

1. Press calibration button
2. Measure 10 ft. of tape
3. Press calibration button
