

ILSCON® Disconnect Terminals Standard Female

- Female disconnect configuration
- Color coded
- Funnel wire entry
- Vinyl insulation - VDFT
- Nylon insulation - NDFT, NDFTD
- Barrel allows for two crimps - NDFTD
- Manufactured from high strength brass alloy
- Electro-tin plated
- Allows for fast, reliable, convenient connection to male tab without the use of tools
- Provide easy wire range identification
#18-22 AWG Red
#14-16 AWG Blue
#10-12 AWG Yellow
- Offers maximum conductivity
- Provides low contact resistance
- Smooth wire insertion into barrel
- Ensures reliability for brass conductor
- Provides corrosion resistance and strain relief
- Increased heat and chemical resistant qualities for more demanding applications
- Provides strain, relief, prevents exposure of conductor

All wire sizes, unless noted otherwise, are American Wire Gauge (AWG)
Tested to UL 310, UL File E474613
