

ILSCON® Ring Terminals Standard Vinyl Insulated

- Ring tongue
- Color coded
- Funnel wire entry
- Vinyl insulation
- Brazed barrel
- Manufactured from high strength copper alloy
- Electro-tin plated
- UL Listed for 600 volts, 105° C
- Secure termination that cannot be removed unless the mounting screw is removed
- Provide easy wire range identification
#18-22 AWG Red
#14-16 AWG Blue
#10-12 AWG Yellow
- Offers maximum conductivity
- Provides low contact resistance
- Stronger crimp connection that will not split open, prevents wire pull out
- Smooth wire insertion into barrel
- Provides corrosion resistance and strain relief
- Ensures reliability for copper conductivity

<l>All wire sizes, unless noted otherwise, are American Wire Gauge (AWG)
Tested to UL 486A/B, UL File E6207</l>
